

Twiddle Mats Instructions

Your kit contains everything needed to make 4 twiddle mats.

Either a ready made top, or small squares to be sewn together to make a top, approximately 12×18 inches.

Wadding.

Backing fabric.

A bag of bling items.

How to construct your twiddle mat

Piece together small squares to make top of mat. 4 rows of 3 squares will give you roughly the correct size. (Omit this step if your kit contains a ready made top).

Press

Place top and back fabric right sides together, then place on top of wadding.

Machine round edge, leaving a gap to allow turning.

Trim seams and cut across corners to make turning easier.

Turn to right side and press.

Top stitch around edge, making sure to close up the opening.

Your mat is now ready for blinging.

Make sure to stitch the bling items through the 3 layers of fabric, so they are secure, and cannot be pulled off by the users.

Try to use a mixture of hard (keys, buttons, buckles etc.) and soft bling (ribbon, lace, small knitted items etc.)

8 - 10 items are ideal for a mat this size.

Enjoy making your twiddle mats.

Please return any unused squares, bling & small plastic bags with your completed mats

Thank you
